

MOHAMED HAIKALI MWAMCHUA

SOFTWARE DEVELOPER

Dar es Salaam, Tanzania • 0654 000 873 • mohamedmwamchua@gmail.com • github.com/MohammedMwamchua

PROFESSIONAL SUMMARY

Full-stack software developer specializing in React, Django, and PostgreSQL, with hands-on web and mobile development experience gained through field practical training at NSSF and TANESCO. Proven ability to deliver complete, working software — including a machine-learning-powered clinical risk assessment platform. Bachelor of Computer Engineering (DIT, 2026) and a Diploma in Computer Engineering (MUST, 2023). Fluent in English and Swahili.

SKILLS

Languages:	Python, JavaScript, C#, C++
Frameworks:	React, Django, FastAPI, Flutter
Databases:	PostgreSQL, SQLite
Tools:	Git, GitHub
Other:	Mobile application development, machine learning (scikit-learn), IT support & troubleshooting
Soft Skills:	Problem-solving, team collaboration, communication, adaptability, time management, attention to detail

EXPERIENCE

- Field Practical Training — TANESCO, Dar es Salaam** *Aug – Oct 2025*
- Provided day-to-day IT support to office staff, troubleshooting hardware, software, and network issues
 - Maintained computer systems and resolved technical requests across departments
- Field Practical Training — NSSF (National Social Security Fund), Dar es Salaam** *Aug – Oct 2024*
- Developed a demo mobile application during a hands-on full-stack field training program
 - Applied practical skills in mobile app design, backend integration, and testing
- Field Practical Training — TANESCO, Dodoma** *Jul – Sep 2022*
- Began learning web and mobile development skills through hands-on, on-the-job training
 - Supported daily IT operations while building foundational programming and development skills
- Field Practical Training — Dodoma City Council** *Aug – Oct 2021*
- Provided routine IT support services across council offices, including troubleshooting and technical assistance
 - Gained early, practical exposure to office IT systems and support workflows

PROJECTS

Mnadani Secondary School Website — Full-Stack Developer

github.com/MohammedMwamchua/mnadani-secondary-school

- Built the school's public-facing website frontend using React
- Designed a Django and SQLite backend to support dynamic, structured content
- Built an admin panel so school staff can manage news, awards, staff profiles, and an alumni history section

Panga Nasi – House Rental Listing Website — Full-Stack Developer

github.com/MohammedMwamchua/MKP

- Built a website that lets customers browse available rental houses across Tanzania
- Implemented a request system so customers can send a rental inquiry directly to a listed house
- Built with React on the frontend and a Django and PostgreSQL backend

StrokeGuard – Stroke Risk Assessment & Lifestyle Recommendation System — Full-Stack Developer

github.com/MohammedMwamchua/StrokeRiskAssesment

- Built a full-stack clinical workflow system for hospitals to register patients, assess stroke risk, and manage doctor-approved lifestyle recommendations
- Trained a Random Forest model on a 68,611-row dataset to predict stroke risk (ROC AUC 0.804), paired with a rule-based engine that explains 12 weighted risk factors
- Built the backend with FastAPI and SQLite and a Flutter frontend with role-based screens for reception, doctors, lab staff, and admin; approved recommendations sent to patients via SMS

EDUCATION

Bachelor of Computer Engineering — Dar es Salaam Institute of Technology (DIT)

2026

Diploma in Computer Engineering — Mbeya University of Science and Technology (MUST)

2023

CERTIFICATIONS & LANGUAGES

Certifications: English Proficiency Certificate

Languages: English, Swahili
